

U-235

SUB-OCTAVE GENERATOR

Made by Parasit Studio
www.parasitstudio.se

- Level (octave level) = C100K
VR1 (sensitivity trimmer) = 1M
- IC1: TL072
IC2: TL074
IC3: CD4046
- SW (Octave Mode switch) = DPDT on/off/on
SW lug 5 to Ground
- * This resistor may have to be adjusted (from 4.7K to 15K),
for the detuned output (switch middle position) to work correctly

CV input jack tip to CV in. CV input jack sleeve to Ground

24x22, 44 cuts, 21 links
